# Bibliography

### ADMINISTRATIVE LAW AND PROCEDURE

*Robert I. Conn*

The compiling of a bibliography of Administrative Law and Procedure presents numerous problems. The topic is one difficult to delineate and the selection of the most useful order and manner of citation presents a perplexing problem. An explanatory note is therefore necessary.

The attempt has been to include in this bibliography a reference to every significant piece of legal writing on or relevant to the subject of California Administrative Law and Procedure. Though most of the materials included are to be found in California legal periodicals, other materials have been included where particularly relevant. Though research was not limited to any particular group of publications, special attention was given in compiling the bibliography to the following legal periodicals: the California Law Review, the California State Bar Journal, the Hastings Law Journal and Intramural Law Review, the Southern California Law Review, the Stanford Law Review, and the U.C.L.A. Law Review and Intramural Law Review.

The bibliography is arranged under broad subject headings, with sub-headings where appropriate. Within this general arrangement the items in the bibliography are cited in chronological order, latest first, where no other order of citation seemed more appropriate. Wherever an article or book is of particular importance, however, it is cited first regardless of date. The titles of books and professional articles and the names of their authors are given in full. Student work is indicated by a brief descriptive phrase and citation only, the name of the author being omitted. Articles and notes are segregated only in the largest subject headings.
