Persson, Torsten, Gérard Roland, and Guido Tabellini. 1997. “Separation of Powers and

accountability: of legislators, 64

*Adkins v. Children’s Hospital* (1923), 282n8

administration: delegation game, 81–88; hierarchical chain of command, 80. See also decision making, administrative; procedures, administrative

administration, government: as bureaucracy, 151–54; cooperative oversight, 158–61; features of, 150–51; unilateral oversight, 154–55

*Administrative Procedures Act*, 155–58

administrators: delegation of authority by, 80–88

advantage: of large state bureaucracies, 165; offset advantage of small, narrow bureaucracy, 165–66

advertising: commercial, 316–17; political, 314

agenda setting rules, 43–46

allocation of power: horizontal, 120; vertical, 120

antitrust theory: cartel expansion under, 211

apportionment: under direct and indirect democracy, 146

arbitration: United Nations Commission on International Trade Law, 137

*Arlington Heights v. Metropolitan Dev. Corp.* (1977), 338n9

*Bakke*. See *University of California Regents v. Bakke* (1977)

ballot initiatives: bonding, 147–48; transaction costs of, 147

bargaining: bargain set, 215–18; under Coase Theorem, 9n21, 53–56; with cooperation, 111; cooperation and distribution in games of, 61–62; effect of spliced and factored issues on, 120–24, 145–46, 361; for jurisdiction of private law, 137–39; legislature as forum for political, 174–89; under majority rule, 115; organization of, 108; owner offset and mitigation in, 297–99; externality problems, 368; take-it-or-leave-it offers, 218–19, 224–25; between two houses of legislature, 223–25; under unanimity rule, 114–15. See also politics

bargaining, constitutional: threat values, 274–76

bargaining, legislative, 171; conditions for failure, 189; as a market, 189; organization of, 173–75

bargaining, political, 361–63; with differences in subjective values, 176; role of independent judges in, 196–98; successful, 58; transaction costs of, 175

bargaining theory: applied to contractarianism, 273–74; cooperative and noncooperative, 56–57; Nash bargaining solution, 57

The Beatles, 1n4

bicameralism: bargaining between two houses of legislature, 223–25; divided legislative powers under, 212; effect of strong form of, 185; as method to destabilize political cartels, 185–89

*Boomer v. Atlantic Cement*, 287n22

*Bowsher v. Synar* (1986), 89n18

*Brown v. Board of Education* (1954), 336–37

*Buckley v. Valeo* (1976), 315

bureaucracy: advantage of large state, 165; functioning of perfect, 149n1; funding, oversight, and leadership appointment by, 150–51; offsetting advantage of small, narrow, 165–66. See also administration; administrators

candidates: bundling of, 179–80; under majority rule, 179–80

cartels: expansion, 211; social, 370

cartels, political: bicameralism to destabilize, 184–85; destabilized by separation of powers, 211; under indirect democracy, 145; proportional representation to destabilize, 184

centralization: effect on terms of agreement, 114–15; pure, 111; resistance in United States to, 119. See also decentralization

chaos theorem, 43

charters, corporate, 138

choice, contractarian, 2f, 6. See also public choice theory
Citizens to Preserve Overton Park, Inc. v. Volpe (1971), 162n15

civil rights: courts' review of statutes related to, 337; as freedom from discrimination, 333; laws subject to strict scrutiny, 337; movement's challenge to segregation, 335
Civil Rights Act (1866), 335

Civil Rights Act (1964): attack on discrimination under, 337–38; Title VII equal opportunity guarantee, 338, 345; Title VII revisions (1992), 345

civil society: in constitutional bargaining game, 273–74; of Hobbes, 275; of Locke, 275–76
Clinton v. City of New York (1998), 221n11

clustering: of people with similar preferences, 129–30

collective action: defined, 7; multidimensional, 73; decisive, 40; holdouts in formation of, 113; instability of governments with, 75–76; members' order of joining, 113; minimum connected coalition, 74–75; minimum winning coalition, 73–74; minimum working coalition, 74; most complementary coalition, 75; in two-party systems, 76–77

coalition theory: winner-take-all-plurality theory, 29

Coase Theorem: bargaining under, 9n21, 53–56, 108; democratic, 53; political, 53; predictions of, 112; statement of, 108; strategy as part of transaction costs in, 12–13; transaction costs of, 9n21, 53–56, 108, 136

coercion: in collective action, 111

collective action: coercive, 111; unanimity and majority rules, 114–15

collective choice: defined, 7; multidimensional, 42–44. See also voting cycles, intransitive collective-choice theory: economic models, 7; winner-take-all-plurality rule under, 28–30, 178

commodity, contingent, 139

Commodity Futures Trading Commission v. Schor (1986), 88n11

common agency problem, 158

common law: of contracts, 199; efficiency of, 200; judge-made, 199–200; land use under, 281; taking of property under, 282

compensation: incentives associated with, 293; for state's taking of property, 292–93

competition: among governments, 102, 127–29; constitution as constraint on politcal, 9; in a market economy, 126–28; and

Constitution, U.S.: acquired by agreement, 273; Fourteenth Amendment, 335, 337; guarantee of human and property rights under, 281; Takings Clause, 288–91; Thirteenth Amendment, 335; violations of, 337

constitutions: courts' interpretations of, 231–34; rights to welfare in, 11

contractarianism: bargaining theory applied to, 273–74; choice under, 2f, 6; rationalization of features of democracy, 273; state of nature in, 273–74; threat values in constitutional bargaining, 274–76

contract law: with jurisdictional competition, 138

contracts: absence of bargaining with standard form of, 138; arbitration clauses in international, 137; bargained, 136; bargain theory of, 197; judge-made common law of, 199; in markets, 62; for unmatured tort claims, 139

cooperation: bargaining required with, 111; minority and majority rule with bicameralism, 187–88

core: of a game, 41; of game of coalition government with symmetrical parties, 76; of game of majority rule with symmetrical players, 58, 76, 185–86, 272; in unicameral legislature, 185
corruption: with delegation, 89

Corry v. Stanford University (1995), 323n32
cost-benefit efficiency, 26, 32-35
courts: agreement enforcement by, 197-98; discretionary power with separation of powers, 225-34; interpretation of legislation, 197-98; making of common law, 199-201; Pareto-inefficient, 201-3; political role of, 197-98; problems and solutions for, 367; role of independent, 197
decentralization: effect on terms of agreement, 114-15; pressure for, 119; pure, 111
decision making: quasi-judicial and legislative decisions, 156-57
decision making, administrative: under Administrative Procedures Act, 155-58; in hierarchical bureaucracy, 151, 154-55; individualized, 161-64; regulatory wholesale and retail, 161-64
degradation: of authority in decision making, administrative: under Administrative Procedures Act, 155-58; in hierarchical bureaucracy, 151, 154-55; individualized, 161-64; regulatory wholesale and retail, 161-64
degradation: of authority in delegation game, 80-88; intra- and interbranch, 89-91; legal significance of, 86-88; model of, 81-86; nondelegation, 86-91
degradation game, 80-88
demand: for legislation, 213-14; for liberty, 251
democracy: bargained, 361-63; conceptions of justice under, 12; defined, 13; empty core of, 58-60; facilitates competition, 128; as market for votes, 17-18; median, 361-63; median tendency in party platforms, 25-26; political competition in, 4, 104, 127-29; requirements for efficiency in, 96-98; strategic theory of, 174; superiority of, 373-74
democracy, direct: in California, 144-45; criticism of, 146; factoring of issues under, 145-46, 361; procedures for, 143-44; shift from indirect democracy to, 145
democracy, indirect: procedure for, 144; shift to direct democracy from, 145; slicing of issues under, 145
discretion: judicial, 225-34; in quasi-legislative procedures, 156-57; relation to legality in bureaucracy, 96-98; in rule game, 91-95
discretionary power: court discretion, 225-34; effect of separation of powers on courts', 225-34; of European Commission, 237; of European Court of Justice, 238; oversight of, 370; under Civil Rights Act (1964), 337; discriminatory power, 343-45; information-based, 370; laws examined for intent to discriminate, 337-38; under perfect competition, 340-43; rational, 349; signals of, 348-51
discussion set, 215-17
distribution: in bargaining games, 61; as policy value, 10-11; of political parties in legislature, 177-78. See also income distribution: redistribution
districts, electoral: district magnitude, 180-81; gerrymandering, 181-82; laws regulating formation of special, 141; with unicameral and bicameral legislature system, 185-89
Doe v. University of Michigan, 323n32
Duverger's Law: party consolidation with plurality rule, 184; prediction about two-party competition, 10, 183; reduction in district magnitude in generalization of, 181; winner-take-all-plurality rule, 28-30, 178
economics: as policy science, 10-11
economic theory: of preferences, 376; steps in bargaining process, 57-58

efficiency: cost-benefit efficiency, 32-35; Pareto efficiency, 32; as policy value, 10-11; relation to liberty, 11
elasticity principle, 294-97
elections: competition in winner-take-all, 28-30; rules for conducting, 18, 25-37; theory of, 25-31. See also competition; voting
emergency doctrine, 284
engagement principle, 152
equal opportunity: under Civil Rights Act (1964), 338, 345

equilibrium: location equilibrium, 129-30; multiple equilibria in pure coordination games, 110-11
European Union (EU): Council of Ministers, 235-37; Court of Justice, 235-36, 238; European Commission, 235-37; labor markets in, 130; Parliament, 235-37; principle of subsidiarity, 120; unilateral qualified majority, 236-38; unilateral unanimity, 236-38

executive branch: bargaining between legislature and, 215-23; under dictatorship, 212, 228; effect of separating powers of, 215-23
system, 189–90, 212, 213; power of
line-item veto, 221–23; in presidential
system, 189–90, 212–13; rewards and
punishment for legislators, 190; role stated
in economic terms, 174
externalities: causes of, 368; circumstances
for state control of, 368; conditions for
bargaining, 286; disruptive, 370
factored issues: in bargaining, 120–24, 145–46,
361; under direct democracy, 145–46, 361;
political, 120–24, 145–46, 361
feasibility frontier: income taxation and
redistribution, 262–63; maximax, 262, 264;
maximin on, 262–64; max wealth, 262–63;
max welfare, 262–63
Federal Election Campaign Act (1971), 315
Federal Election Commission v. National
Conservative Political Action Committee
(1985), 315n11
federalism: theory of, 105–6; unanimity and
majority rule under, 111–12
Feres v. United States (1950), 157n11
fiscal policy: principle of fiscal equivalence
(Olson), 107n2
freedom: fifth freedom, 140–41; relation to
liability, 324–32; restrictions on, 130–32
free-riding: conditions for, 105; conditions for
government, 106; incentives for, 106, 109;
related to lobbying, 66–68
free speech: constitutional guarantee of, 311;
economic theory of, 324; meaning of,
310–11; as merit good, 313; as public good,
309–10; public-goods theory of, 321; related to
to libel, 325–26

games: bargaining games, 61–62; of delegation,
80–88; dictator games, 220n10; general
game of contracting, 84n7; pure conflict
game, 58; of pure coordination, 60–61, 110;
rule game, 91–95; of state, 77–78; strategies
in interactive, 9–10; terms of cooperative,
40; ultimatum games, 220n10. See also core
game theory: analysis of strategic behavior
by, 9; bargaining in, 36–57; goal of
constitution, 11; minimax strategy, 11–12;
Nash bargaining solution, 57, 218
gerrymandering; conditions for, 181;
illustration of, 181; test to detect, 181–82
government, parliamentary: bicameral, 228;
executive in, 189–91; party discipline under,
191; separation of powers under, 212;
unicameral, 215–23, 228–29
governments: bargaining with private owners,
297–303; competition among, 102; conduct
influenced by separation of powers, 211;
constitution organizes, 171; hierarchies in,
101, 103; influence of central government on
peripheral governments, 115–20;
internalization prescription for jurisdiction,
107–8; issues with broad and narrow
jurisdictions, 120–24; models of interaction
among branches, 172; monopoly forms of, 4;
optimal division of powers within, 365–67;
optimal number, 103–4, 361–63; optimal
relations between, 363–65; preventing
free-riding, 105; provision of pure public
goods, 105; sources of competition among,
127–28; in a state with few parties, 171; in a
state with many parties, 171; supply of
public goods by, 105–24
grants: block, tied, and matching, 116–19
Hammond v. United States (1986), 158n12
harmonization: effect of harmonized laws, 137;
mandatory, 137–38
hate speech, 323
hierarchies: in administrative chain of
command, 80; in bureaucracy, 151, 154–55;
corporations as, 101, 103; democratic states
as, 101, 103; in executive branch, 171; in
government and corporations, 101, 103; in
public sector, 101
Hills Development. See Mt. Laurel, Ill: Hills
Development Co. v. Bernard (1986)
Hobbes Theorem, 60n11
holdouts: in coalition formation, 113; with shift
from unanimity to majority rule, 114–15
human rights: equality and liberty rights, 340;
guarantee under U.S. Constitution, 281;
rights included as, 309; Supreme Court
protection of, 281–82
Hustler Magazine v. Falwell (1988), 318n19,
327n36
immigration: mobility with, 134–35
income: individuals’ self-selection by, 132–33
income distribution: feasibility frontier,
262–64; maximin as redistributive ideal, 263;
competition among, 102; conduct
influenced by separation of powers, 211;
government and corporations, 101, 103; in
executive branch, 171; in
public sector, 101
Industrial Union Dept. v. American Petroleum Institute (1980), 88n10, 89n17

information: about use of congestable public goods, 106; asymmetric political, 63–64; effect of increasing flow of, 350; in games of pure coordination, 110; imperfect, 110, 348–49; role in jurisdictional competition, 138–39; role of asymmetrical information in discrimination, 348–51; transmitted by speech, 369

institutions: evolution and improvement of, 104
integration: replaces separate but equal, 337; residential, 352; stabilizing, 355
interest groups: influence of, 152–53 See also lobbying
internalization: as prescription for government jurisdictions, 107–8; of social norms, 377–78
International Chamber of Commerce (ICC), 136
intransivity, 13

Jim Crow laws, 335
judges: adjustments to laws by, 199; cooperation among, 202–3; in dictatorship, 228; differences in beliefs and values, 208–9; effect of consequentialism on decisions of, 203; independent, 195–99, 202; political values of, 204–5; preferences of, 202; vote trading by, 205–9
judicial review, 335
judiciary: independence of, 171, 195–98; interpretation of laws, 173–74; role stated in economic terms, 174. See also courts
jurisdictions: bargaining for, 136–39; broad and narrow, 120–24; competing for: private law, 137–39; competition to supply public goods, 140–43; internalization prescription for government, 107–8; movement of people to, 129–36

land use: under common law, 281; effect of regulations on property values, 273
law merchant, 200
Law of Large Numbers: applied to government, 176; statement of, 176
laws: antidiscrimination, 346; civil rights, 337; conventional definition, 8; economic analysis of obedience to, 375; price theory applied to, 8; protect rights, 245; purposes of, 245; regulation special district formation, 141. See also common law; Duverger’s Law; Jim Crow laws; legislation; libel; private laws; property law; rule of law
legality: constraints in rule game, 91–95; relationship to discretion in bureaucracy, 96–98
legislation: circumstances demanding, 213–14; consensus legislation, 55; effect of different procedures in European Union, 236–38; factors influencing decision making, 175–77; judicial review of, 335; legislative intent, 198; repeal of judicial interpretation, 225, 227; subjected to strict scrutiny, 337; supply related to price of, 214. See also laws
legislators: avoidance of Pareto-inferior legislation, 202; cooperation in trading of votes, 53; election and reelection, 174–75; interaction between parties, 171, 189; interaction within a party, 171, 189; in presidential system, 213; trading votes, 52, 54–55
legislature: bargaining between executive and, 215–23; bargaining between two houses of, 223–25; effect of separating powers of executive and, 213–15; interaction among members of, 171; optimal party composition, 177–78; optimal size of, 175–77; in parliamentary system, 212; role stated in economic terms, 174; with two chambers, 185–89; unicameral, 185–86. See also bicameralism, unicameralism
liability: for false assertions, 324; liability right different from property right, 285; relation to freedom, 324–32; strict liability, 324–25
libel: cost-benefit test for, 329–31; examples of, 325–29; strict liability and negligence in law of, 324–25
liberty: individual rights as, 245; liberty frontier, 248; as merit good, 254–56, 269; positive and negative, 340n14; price and cost of, 246–49; as protected permission, 245, 248; as public good, 248–50; relationship to wealth and welfare, 269–72; relation to economic theory, 11; social value of, 269; as welfare, 252–53. See also freedom
liberty rights: trade-off with welfare rights, 261 lobbying; investment in, 64–68; related to public spending, 192–93; related to
majority rule: central tendency of, 12–13;
choice in political bargaining, 61–62; effect
on large organizations, 112, 113–14;
intransivity of, 13, 39; for judicial decision
making, 204; pure centralization under,
119; redistribution under, 58; switch from
unanimity rule to, 112, 115; unilateral
qualified majority of EU, 236–38. See also
sub-majority rule; super-majority rule
markets: contracts in, 62; discriminatory
market power, 345; efficiency in, 128;
failures causing harmful discrimination, 370;
legislative bargaining similar to, 189; for
litigation, 199–200; in private sector, 101;
for votes, 17–18
matching grants, 116–19
maximax feasibility frontier, 262, 264
maximin, 263–64
median rule: applied to government, 176; in
candidates’ choice of platform, 25–28, 32;
defined, 13; efficiency with cost–benefit
standard, 32–34; Pareto-efficient, 32
merit goods: defined, 254; free speech as, 313;
liberty as, 254–56, 269; social value, 254,
269
minimax constitution, 11–12, 60
Mistretta v. U.S. (1989), 89n17
mitigation: difference from offset, 299–303; by
owner in bargaining with state, 297–99
mobility: clustering, 129–30; exclusion,
132–34; immigration, 134–35; related to
individual preferences, 129–36; restrictions,
130–32
monopoly: large state with natural, 77–78;
power of political parties, 180; when speech

Park, Inc. v Volpe (1971)

Pareto-efficient outcomes, 32; avoiding
obstructions of, 202–3; bargaining produces,
202; on feasibility frontier, 264; of judicial
interpretation, 227–28; use of ordinal utility
function, 49
Pareto frontier, 248n10
Pareto-inferior outcomes: avoiding,
202–3; majority rule produces, 202
Pareto self-improvements, 377–78
Pareto set: of agency discretionary power,
159–61
patronage system, 96–98
Pembaur v. City of Cincinnati (1986), 246n8
(1973), 307
Personnel Adm’r of Massachusetts v. Feeney
(1979), 338n9
Plessy v. Ferguson (1896), 336
pluralism theory, 63
plurality rule: under Duverger’s Law,
28–30, 178, 184; effect on political parties, 178–79;
finding and picking Condorcet winners,
182–83; merges parties, 191; strategic voting
under, 183
policy analysis: role of efficiency, 31–37
policy science, 10–11
policy values: defined, 10; economists as
experts on, 10
political action committees (PACs), 314–16
political parties: in bicameral legislature,
185–89; candidates’ choice of platform for,
25–28; effect of plurality rule on, 178–79,
191; effect of proportional representation
rule on, 30, 178–80, 191; monopoly power,
180; optimal distribution in legislature,
177–78; ranking under minimum connected
colalition, 74; similar to firms in marketplace,
political systems: pure centralized or decentralized, 111
politicians: bargaining among, 15; strategic behavior, 51–63
politics: application of economic models to, 7–10; as bargaining game, 61; bureaucracies' response to, 150–51; with equilibrium in electoral competition, 31–37; investment in, 65–66; issues in governments with broad and narrow jurisdictions, 120–24; limits on officials' deals, 62–63; with no equilibrium in electoral competition, 37–47; patronage system, 96–98; political bargaining, 58, 175–76, 196–98, 361–63; splicing and factoring political issues, 120–4, 145–46, 361
pornography as speech, 318–21, 369
power: delegation in delegation game, 80–88; discriminatory market power, 345; of government administrators, 150–51; horizontal and vertical allocation of, 120; legislative power in unicameral setting, 212–15; of legislature in bicameral setting, 212–23; of line-item veto, 221–23; monopoly power of political parties, 180; monopoly power of the state, 4; nondelegable, 86–87; states' differences in allocation of, 102; of a vote, 21, 52. See also discretionary power; separation of powers
preference revelation, 140n18, 183–84
preferences: of citizens, 176–77; clustering of people with similar, 129–30; economic theory of, 376; of judges, 202; related to public goods, 129–30; of voters, 19–25. See also voter preferences
prejudice, irrational, 349, 370
price theory: applied to agency procedures, 164–65; applied to law, 8–10; assumes nonstrategic behavior, 9
private bads, 286–87
private goods: liberty as, 246–49
private laws: difference of public regulation from, 287; jurisdictional competition over, 136–39; jurisdictions for, 136–39
procedures, administrative: effect on outcomes, 164–65; quasi-judicial and legislative, 156–57
property: economic theory of, 284–88; judge-made common law of, 199; taking by the state of private, 280. See also taking of property
property rights: in constitutions, 11; difference from liability right, 285; identified, 279–80; intellectual, 312; protected under U.S. Constitution, 281; Supreme Court decisions about, 281–82; voluntary exchange of, 284
proportional representation: Condorcet winners in, 182–83; costs of decisions with pure or minimum, 177–78; multiplies parties, 191; rule, 30, 178–80, 191; size of electoral districts, 180–81; strategic voting under, 183–84; voting effects under, 178–80
public bads, 287
public choice theory, 7
public goods: administrator's response to cost of, 167–69; agency's costs to supply, 164–65; benefits from pure, 105; benefits to society, 151–54; competition to supply, 140–43; conditions for efficiency in local, 129; congestable, 106; differences in governments' consumption of block, tied and matching grants, 116–19; liberty as, 248–50; political information as, 313–14; price effects of supplying, 167–69; pure nonrivalrous and nonexcludable, 105; speech as, 309–10; supply predicted by Coase Theorem, 112
public policy. See fiscal policy; policy science; policy values
redistribution: game of state as game of, 77–78; limiting means of, 11; majority-rule games of, 287; as policy value, 11; in political bargaining, 51–62; relation to property rights, 11
regulations: differences from private law, 287; of European Union (EU), 236; interaction between regulator and regulatee, 151–53; related to private property, 292; wholesale and retail decision making, 161–64
rent-seeking: coalition formation in theory of, 73–75; conditions for stable and unstable, 114; defined, 68, 347; logic of, 68–72; predictions about political coalitions, 73–75; relation to lobbying, 68–73
resource allocation: under property law, 279
rights: bicameralism protects, 188; constitutional, 367–70; contingent, 139; inalienable, 257; individual, 243–44; rights in general different from individual, 245; tort rights, 139; trumping other laws, 257–59; work-a-day, 244–45 See also civil rights; human rights; liberty; rights of aliens; property rights; public rights; rights of persons; property rights; constitutional rights; property rights; natural rights; property rights; state property rights; rights to life, liberty; freedom of speech
right to vote, 11
rule of law, 135, 175, 313–14
rules of procedure, 187
sales tax, 245, 247
scrutiny, judicial, 91
search theory: applied to agency procedures, 164–65; applied to law, 8–10; assumes nonstrategic behavior, 9
sentencing: discretion in, 175–76, 196–98, 361–63
signing, 245
social contract, 139
social choice: applied to agency procedures, 164–65; applied to law, 8–10; assumes nonstrategic behavior, 9
social information, 313–14
social science: political, 17–19
social security, 230
social welfare, 230
speech: as pure, 309–10; protected under U.S. Constitution, 281–82; voluntary exchange of, 284
splicing and factoring political issues, 120–4, 145–46, 361
standing in court, 21
states: differences in monopoly power of, 180; monopoly power of the state, 4; nondelegable, 86–87; states' differences in allocation of, 102; of a vote, 21, 52. See also discretionary power; separation of powers
rule of law: encompassed by democracy, 371; secured by courts, 367
See also majority rule; median rule; plurality rule; unanimity rule; voting rules

Schenck v. United States (1927), 324n34
segregation: economic logic for, 141-42
segregation: avoiding tragic, 355; effect of white flight, 352-56; under Jim Crow laws, 335; replaced by integration, 336; separate but equal ruling, 336
separation of powers: destabilizes political cartels, 211; under different constitutions, 211-13; doctrine of sovereign immunity in, 157-58; effect of intra- and interbranch delegation on, 89-91; effect on judicial discretion, 225-34; in European Union, 236-38; function of, 171-72; influence on supply of and demand for legislation, 213-14; influences conduct of government, 211

Shelly v. Kraemer (1948), 355n32
signals: discriminatory, 349-50, 370; reliance on false, 350; in transactions with imperfect information, 349
slavery, 334-35
social contract: of Locke, 275-76; of Rawls, 276
social norms: as control of landowner behavior, 286; internalizing, 377-78; as regulators, 286; to solve externality problems, 368
Southern Burlington County NAACP v. Township of Mt. Laurel (1975), 133n3
sovereign immunity doctrine, 157-58
speech: beneficial externalities of, 311-12; commercial, 316-17; conditions for restrictions on, 321-23; constitutional protection of political, 312-16; hate speech, 323; pornography as, 318-21. See also free speech
spillovers: in competition among governments, 127-28; as incentive for free-riding, 106, 109-10; of public goods, 106-8
splicing issues: effect on bargaining, 120-24, 145-46, 361; political, 120-24, 145-46, 361
Starrett City, 354-55
strategic theory: of democracy, 174;
sub-majority rule, 34-35
subsidies: related to merit goods, 254
substitution of public goods: conditions for, 164-65, 167-69
super-majority rule, 34-35, 111

Supreme Court: attention to human rights (1937), 281-82; decision in Buckley v. Valeo, 315; decision in New York Times v. Sullivan, 327; Lochner decision (1905), 281-83; Nollan decision, 297-303; ruling in Plessy, 335-36
taking of property: under common law, 282; compensation for, 292-93; as form of taxation, 286; restricted by the constitution, 280; second-best theory of regulatory, 295-97; Takings Clause of U.S. Constitution, 288-91; unilateral gain in, 284
takings, regulatory, 295-97. See also elasticity principle
taxation: proposed pornography tax, 318-19, 369
term limits, 193-94
threat values: in constitutional bargaining, 274-76
trade-offs: utility as, 266
transaction costs: of Coase Theorem, 9n21, 53-54; conditions for reduced, 112; of direct democracy, 147; of oversight, 154-56; relation to size of legislature, 175-77; of secession, 141-42; with standard-form contracts, 138; in three branches of government, 174; of wholesale and retail administrative decisions, 161-62
transferable development rights (TDRs): advantages of, 305; allocation of development rights by, 304-5; efficiency of, 303-4; political viability of, 306-7
Trump, 257-59
two-party system: coalitions in, 76-77; under winner-take-all plurality rule, 28-30
unanimity rule: choice in political bargaining, 61-62; decentralization under, 119; effect on large organizations, 112-13; switch to majority rule from, 112, 115; unilateral unanimity of EU, 236-38
unconstitutional conditions doctrine, 302
unincorporalism, 185-86; legislative powers with, 212-15
U.S. v. Lopez (1995), 119n11
utility: individuals maximization of, 265;
   interpersonal cardinal utility, 48–49; ordinal, 48–49; view in modern economics, 266;
   von Neumann-Morgenstern cardinal utility, 48–49

Vermont Yankee Nuclear Power Corp. v. Natural Resources Defense Council (1978), 156n10, 162n16
veto: line-item, 193, 221–23; total, 221

Virginia State Board of Pharmacy v. Virginia Citizens Consumers Council (1976), 317n16
voter behavior: under direct and indirect democracy, 146; intransitive, 41–43; under winner-take-all-plurality rule, 28–30
voter participation: rates of, 20; rational abstention from, 22–23; self-interested theory of, 21
voter preferences: in candidates’ choice of platform, 256–27; intransitive, 38–43
vote trading: among judges, 202–9; among legislators, 52–55; forming coalition for, 73–75
voting: circular, 42–46; coalition formation for vote trading, 73–75; individual behavior, 19–25; intransitive, 41–42; mixed-motive theory of, 21–22; paradox of, 21
voting, strategic: circumstances for, 183–84;
   under plurality rule, 183; under proportional representation, 183–84
voting cycles, intransitive: causes of, 59; formation of, 42n33, 44; under majority rule, 42–43; preventing, 43–46. See also agenda setting rules
voting intransivity: political bargaining to avoid, 47
   winner-take-all-plurality rule, 28–30, 178

Washington v. Davis (1976), 338n10
wealth: relationship to liberty and welfare, 269–72
welfare: analysis, 36; comparing levels of, 251–52; liberty as, 252–53; material welfare school, 251, 267–68; relationship to wealth and liberty, 269–72; welfare weights, 252
welfare rights: constitution can guarantee, 261; implementing, 261
welfare states: redistribution in, 11
West Coast Hotel v. Parrish (1937), 282n10
white flight, 352–56
Whitney v. California (1927), 324n34
winner-take-all-plurality rule, 28–30, 178
zero-sum game, 58, 61
zone of privacy: created by property, 280
zoning, exclusionary, 132–34
