Law and the Entertainment Industry

The publication of the articles immediately following makes available to lawyers throughout the United States an expanded version of a majority of the papers delivered at the Institute on Law and the Entertainment Industry held at this School in November of 1953.

The enthusiastic reception of the Institute by the Bar has indicated the extent of the interest in the subject matter and it is hoped that the publication of this material will be a contribution to the research aids in this field and will stimulate increased activity and scholarship.

The substance of Dean William L. Prosser’s address on Defamation has already been printed in 51 Michigan Law Review 959. A student comment on Movie Censorship is included in this issue.
