</tbody>
</table>
Federalism
   Supremacy of federal law ........ 585
Fourth amendment applicability to
   administrative searches .......... 141-43
Guaranty clause, Art. IV, § 4 ...... 580-81, 586, 609-10
Procedural due process .......... 69,
   71-72, 81-82
State Sovereignty
   Federal compulsion of state
   regulation ..................... 580,
   590, 604-05, 610
Takings and just compensation ... 69,
   72, 82-85
Tenth amendment limits on
   federal wildlife legislation ...... 297-99
Warrantless administrative
   searches ....................... 142-44,
   146-49

CONTINENTAL SHELF
See also Gas & Oil, International
   Law, International Treaties,
   Marine Pollution, Water
   Pollution
Liability for transnational offshore
   oil pollution .................. 641-83
Nations' choice to develop offshore
   oil ......................... 651-53

DAMAGES
See also Fish & Wildlife
Assessing damages/methods of
   valuing lost fish and wildlife .... 18-24,
   28-29, 32-34

DUE PROCESS
See also Constitutional Law,
   Property Theory
Public trust doctrine ............. 237-39
Takings ....................... 217, 235-36

ECONOMICS
See also Public Lands
Cost benefit analysis
   harmful substance standards .... 87-92
Public lands management
   Development of ski resorts on
   Forest Service land .......... 507-78

ENERGY RESOURCES
State taxation of coal severance ... 97-111

EQUAL PROTECTION
See Constitutional Law

F

FEDERAL COMMON LAW
Applicability to “Agent Orange”
   litigation ..................... 626-39
Applicability to nuisance issues,
   water pollution ............... 51-68
History and development .......... 613-22

FEDERAL COURTS
See Common Law, Federal
   Common Law, Injunctions,
   Standing to Sue

FISH & WILDLIFE
See also Constitutional Law
Methods of valuing lost fish and wildlife
   Liquidated damages .......... 21, 33-34
   Market value of fish and wildlife
   at time of loss ............... 18-19
   New “economic” approaches to
   valuation ................... 21-24
   Replacement cost .... 19-21, 28-29, 32-33
State recovery of compensatory damages
   for destruction of fish and wildlife by
   pollution
   Common law theories of
   recovery ...................... 9-13
   Economic justification for
   recovery of damages .......... 7-8
   Proposed model act authorizing.
   30
   Statutory authorization of
   recovery, Superfund ........ 13-17

FOREST PRESERVATION
See Public Lands

G

GAS & OIL
See also Continental Shelf,
   International Law, International
   Treaties, Marine Pollution, Water
   Pollution
Coastal states' commitment to
   compensation for offshore oil
   pollution ..................... 653-56
Extrajudicial settlement of
   transnational oil pollution
   claims ....................... 674-78
Liability for transnational offshore
   oil pollution ................ 641-83
Risk of offshore oil pollution .... 641-50
Transnational litigation as means
   of compensating offshore oil
   pollution victims .......... 667-74
INJUNCTIONS
Suits against state agencies in federal courts .................................. 303-09
Suits against state officials in federal courts ................................. 299-303

INTERNATIONAL LAW
See also Continental Shelf, Gas & Oil, International Treaties, Marine Pollution, Water Pollution
Accountability for transnational oil pollution .............................. 656-58
Liability for transnational offshore oil pollution ......................... 641-83
Using International customary law to compensate transnational offshore oil pollution victims ........ 661-66

INTERNATIONAL TREATIES
See also Constitutional Law, Continental Shelf, Gas & Oil, International Law, Marine Pollution, Water Pollution
International Convention on Civil Liability for Oil Pollution Damage ........................................... 671-73
Liability for transnational offshore oil pollution ........................ 641-83
1976 Convention on Civil Liability for Oil Pollution Damage Resulting from Exploration and Exploitation of Seabed Mineral Resources ........................................ 670
Offshore Pollution Liability Agreement (OPOL) ..................... 674-76
Uniform Transboundary Pollution Reciprocal Access Act ........ 669

JUDICIAL REVIEW
Agency Decisionmaking .................................................. 201-04
Commerce clause analysis ............................................. 119-24
Container legislation ...................................................... 113-24
Deference to agency decisions not to prepare impact statements on modified projects .................. 256-62
Deference to congressional judgment in health and safety laws ......................................................... 144, 146, 148
Equal protection standard ............................................. 116-19, 121-23

Federal agency management of public lands and resources .......... 456-57, 461-62, 469-73, 490-91, 494-95
Feasibility of OSHA health standards .................................. 93-95
Public trust doctrine, source of substantive review standard for agency action .............................. 457, 462-69, 476-88, 494-95
Strict review of agency failure to prepare EIS, where significant impacts may result .................. 262-64

JURISDICTION
See also Injunctions
Lack of federal jurisdiction in “Agent Orange” litigation ........ 611-13

LAND USE
See Administrative Agencies, Aesthetics

MARINE POLLUTION
See also Continental Shelf, Fish & Wildlife, Gas & Oil, International Law, International Treaties, Water Pollution
Coastal states’ commitment to compensation for offshore oil pollution ........................................ 653-56
Extrajudicial settlement of transnational oil pollution claims ......................................................... 674-78
Liability for transnational offshore oil pollution ...................... 641-83
Risk of offshore oil pollution ........................................ 641-50
Sewage Disposal ......................................................... 40
Transnational litigation as means of compensating offshore oil pollution victims ......................... 667-74

MINERALS AND MINING
See also Energy Resources
Enforcement of health and safety regulations ........................................ 143-48
Federal regulation of surface mining ........................................ 69-74, 76-86
Warrantless inspections of mines and quarries ......................... 139-41, 143-49
N

NATURAL RESOURCES
See also Resource Management, Takings
Public trust doctrine .............. 237-41
Reallocations ........................ 224-28
Reserved rights doctrine ............ 241-48
Waste .................................. 248-51

NUISANCE
See also Takings
Conflict avoidance .................. 219-20
Federal common law .............. 51, 53-68
Federal common law, statutory
pre-emption of ........................ 42
Protection of human property ...... 218-20
Universal nuisances ................. 224-28
Utilitarian considerations .......... 221-24

P

POLICE POWER
See Aesthetics

PROPERTY THEORY
See also Takings
Biological theory .................. 208-11
Due process .......................... 216-17
Resources held in common ......... 214-16
Social functionary (utilitarian)
theories ............................... 212-14

PUBLIC LANDS
See also Administrative Agencies,
Air Pollution, Resource Management
Administrative Procedures
Leasing National Forest lands
for ski resort development .......... 508-09
Economic Analysis
Development of ski resorts on
Forest Service land .................. 507-78
Forest Service licensing of ski resorts
Actual practice ........................ 525-40
Arizona Snow Bowl ................. 532-38,
568-72
Heritage Mountain ................. 572-75
Mineral King ......................... 567-68
Mount Heagen ....................... 526-31, 563-67
Proposed decisionmaking
procedure ............................. 540-62
Red River ............................. 575-78
Theoretical concerns ............... 509-25

PUBLIC TRUST DOCTRINE
See Administrative Agencies,
Judicial Review, Takings

PUBLIC UTILITIES
See Air Pollution

R

REMEDIES
Federal implied private cause of
action .................................. 39, 41-45
Federal statutes, implied repeal ...... 49
Interstate water pollution .......... 51-58

RESOURCE MANAGEMENT
By federal administrative
agencies ............................... 455-63,
467-74, 481-95
Under dominant-use statutes ........ 459,
486, 488, 492
Under multiple-use, sustained-yield
statutes ................................ 456-57,
459, 461-62, 481, 486, 488-90, 493-94

RIVERS
Navagability .......................... 152

S

SEWAGE TREATMENT
See Water Pollution

SKI RESORTS
See Economics, Public Lands

SOLID WASTE
Container legislation ................ 113-16

STANDING TO SUE
See also Fish & Wildlife
State authority to recover damages
for fish and wildlife destroyed
by pollution .......................... 9-17, 30-34
Federal implied private cause of
action .................................. 153-60

STATE-FEDERAL RELATIONS
See Constitutional Law, Injunctions
Air pollution control state
implementation plans ................. 409-11; 417-23
Pre-emption of State Law .......... 55-57, 63

TAKINGS
See also Constitutional Law
Conflict settlement and
compensation ......................... 228-32
Government appropriation and
compensation .......................... 233-35
Nuisance ............................... 222-23
Procedural due process ............. 235-36
Property theory ...................... 208-17
Public trust doctrine .............. 237-41
Reserved rights doctrine ........241-48
Resource allocation ...........224-28
Substantive due process ......232-33
A test ........................236-37
Undercompensation ..........230-31
Waste ........................248-51
TAXATION
See Energy Resources
TORTS
See Federal Common Law
TOXIC SUBSTANCES
See also Federal Common Law
Asbestos ..................355-56, 387-89
Benzene ....................340-95
Coke oven emissions ..........373-76
Cotton dust ..................389-90
Regulation by OSHA ..........339-95
Vinyl chloride .................376-78
TRANSNATIONAL POLLUTION
See Continental Shelf, Gas & Oil,
International Law, International
Treaties, Marine Pollution, Water
Pollution
WATER POLLUTION
See also Continental Shelf, Fish &
Wildlife, Gas & Oil, International
Law, International Treaties,
Marine Pollution
Coastal states' commitment to
compensation for offshore oil
pollution ..........................653-56
Extrajudicial settlement of
transnational oil pollution
claims ................................674-78
Federal Law ......................51-68
Federal Water Pollution Control
Act, Legislative intent and
history ......................168-72
Liability for transnational offshore
oil pollution ..................641-83
Risk of offshore oil pollution .....641-50
Transnational litigation as means
of compensating offshore oil
pollution victims ..............667-74
Variances on effluent limitations
standards .....................164-66
WATER RESOURCES
Preservation of ................151-56
WILDLIFE
See Fish & Wildlife
